

Magizh Technologies

# Certificate of Course Completion

*This certifies that*

**a**

*has successfully completed the FULL STACK DEVELOPER program.*

*Completed in 3 months*

This program covered front-end development using React and Tailwind CSS, as well as back-end technologies like FastAPI and SQLAlchemy.

The recipient demonstrated proficiency in building RESTful APIs, database management, and deploying applications.

Practical hands-on experience included integrating third-party services and version control systems like Git.
